Online Appraisal System Technical Information 2012

Our online Appraisal system is a fully-fledged online, web-based system. All you need is a PC/MAC or Laptop with Internet access. This makes access from anywhere in the world straight forward – from home to office or totally mobile anywhere in the world.

Although broadband access to the Internet is recommended for faster up and downloads, this is not an essential requirement. The following Browser Versions are recommended: Our system is optimized for Internet Explorer, Mozilla FireFox, and Google Chrome.

Get the latest versions of these browsers by clicking on the links below:

[Internet Explorer](#)

[Mozilla Firefox](#)

[Google Chrome](#)

[Safari](#) Server Requirements for Intranet installations: Technically, just about any configuration can be made to run the system on your own server. However, the following would be best to simplify installation:

- > Microsoft Windows Server 2008 (32-bit or 64-bit), Windows Server 2003, Microsoft Windows 7 Professional, Microsoft Windows Vista Business, or Microsoft Windows XP Professional SP2
- > Microsoft SQL Server 2005 or SQL Server 2008 (Express, Workgroup, Standard or Enterprise Edition)
- > Pentium-Family CPU 1.6Ghz or higher (multi-core recommended)
- > Minimum 1 GB RAM
- > Microsoft .NET Framework v3.5 with SP1
- > Internet Information Services 6.0 (or above)
- > SMTP Mail Server
